#### ⚠ WARNING

Do not exceed GVWR or GAWR, including blade and ballast.

#### ⚠ CAUTION

Use standard methods and practices when attaching snowplow and installing accessories, including proper personal protective safety equipment.

#### ⚠ CAUTION

Read this document before installing the shoe kit.

#### ⚠ CAUTION

See your sales outlet/website for specific vehicle application recommendations before installation. The online selection tool has specific vehicle and snowplow requirements.

## INSTALLATION INSTRUCTIONS

1. Park the vehicle on a smooth, level, hard surface, such as concrete. Lower the blade to the ground, and turn the control OFF. Disconnect the snowplow from the vehicle, or turn the vehicle ignition to the "OFF" position and remove the key.
2. Remove the 1/2" locknuts from the second and third cutting edge fasteners.

3. Insert the 1/2" x 1-1/2" carriage bolts through the mounting holes in the shoe bracket and install the 1/2" locknuts from the bolt bag. Torque fasteners to 105 ft-lb.
4. Repeat for opposite side.

5. Insert the shoe stem up through the shoe bracket. Secure it with the 3/8" adjustment pin and hairpin cotter.
6. To adjust the shoe to the desired height, remove the adjustment pin and reinsert it in a different shoe stem hole.

7. Repeat for the opposite side.
