**Chevy/GMC Light Truck 1988-1998  
and 1999-2000 Classic**

**1988-1998 Light Truck and 1999-2000 Classic  
Harness Kit Selection**

1996-2000 full size vehicles: Both U.S. and Canadian made vehicles are equipped with Daytime Running Lights (DRL's). The reduced voltage low beam system requires the same harnesses as previous U.S. vehicles and also requires the installation of 61584 DRL Kit. With this kit, either the plow headlamps or the vehicle headlamps will light in the DRL mode. Applying the parking brake will prevent the DRL's from operating.
